

# TruShield™

*Stainblocker Preservative*

**TruShield™ Features:**

- Perfect for driveways
- Easy to apply
- Can be applied to almost any porous surface
- Residential and commercial applications.

## TruShield™ Stainblocker Preservative

### Product Description:

TruShield™ Stainblocker Preservative, another of the latest innovations from HouseGuard™, is a waterborne, penetrating sealer/preservative, which provides oil and water repellency, stain resistance and release characteristics to porous surfaces such as concrete, grout, unglazed tile, granite, clay, slate, limestone, and terra cotta.

TruShield™ is easily applied by spray or brush to various substrates and surfaces. Surfaces coated with TruShield™ dry quickly and normally exhibit no significant changes in their natural appearance. The invisible TruShield treatment penetrates into surfaces imparting a durable protective barrier to guard and preserve the beauty of porous substrates from common spills and stains.

### Specifications

Appearance	Translucent Liquid
Wt./Gal U.S.	8.4+/- 0.1 lb/Gal.
Coverage Rate	300-350sq.ft./U.S.Gallon
Dry to touch, 77°F, 60% RH	30-60 minutes
Cure, 77°F, 60% RH	24-48 hrs
Flash Point, °F	Not Applicable, Waterbased
Odor	Slight
pH	7.0+/- 1.0
Boiling Point	212°F/100°C
Freeze Point	32°F/0°C
Shelf Life, 77°F	6-12 months
